# Awanthi Malawanage

## undergraduate

I am a highly motivated and results-oriented student currently pursuing a Bachelor of Science in Software Engineering at NSBM Green University. Having successfully completed my first year, currently learning Second year Second Semester.

## Education

### ○ BSc (Hons) in Software Engineering (GPA 3.268)

NSBM Green University(2022-2026)

### ○ GCE A/L (Physical science )

ST/Agnes girls school.(2020)

### ○ GCE O/L

ST/Agnes girls school.(2016)

## Projects

### ○ Porthfolio website

Armed with HTML, CSS, and JavaScript, I set out to build a digital canvas that would showcase my skills and aspirations. This project was more than just lines of code; it was a journey of self-discovery. Every pixel placed, every animation crafted, reflected my personal aesthetic and technical capabilities. I experimented with layouts, color palettes, and interactive elements, pushing my boundaries and refining my taste

### ○ E-commerce website

This e-commerce website project. It was a thrilling exploration of technology, teamwork, and the challenges and rewards of building something tangible. We embarked on this mission armed with the foundational knowledge of HTML, CSS, JavaScript, and PHP. Each team member brought their unique strengths to the table

## UX/UI designs

"Showcased UX design expertise by linking a curated collection of previous UX projects to my GitHub repository. These projects demonstrate a strong understanding of user experience principles, wireframing, prototyping, and user interface design, highlighting my ability to create intuitive and user-friendly digital products."
